Good Evening:

Can we get a status update on this increase? GES has not received anything as far as I can tell.

Thanks

John,

EAS Request # 00378, in the amount of \$50,000, is being requested to increase Task Order 23 with Guardian, the Niagara Falls Boulevard Site in NY. The action memorandum for this Site was signed by the Director of OLEM on September 27, 2016 and authorizes a total project ceiling of \$7,773,000. With this increase, the new Task Order ceiling will be \$2,650,000. The funding is necessary to conduct removal action activities, which include the removal and disposal of certain radioactive Site waste and the temporary de-mobilization of Site infrastructure. As you know, Eric Daly is the OSC of record for this Site. The IGCE form is attached to the EAS request and to this email for your convenience. The FOA requirements for this Site were satisfied on September 15, 2015.

Please contact Eric or myself should you have any questions regarding this request.

Thanks,

Mark
